Problem2

October 31, 2026

[ ]:
```python
# Problem 2: Codility "OddOccurrencesInArray"
# Author: Hansen Zou
# Date: October 30, 2026

def solution(A):
    # Values that have no partner
    unpaired = set()

    for number in A:
        if number in unpaired:
            # Remove after finding partner
            unpaired.remove(number)
        else:
            # Add since there is no partner
            unpaired.add(number)

    # Only the unpaired value is left in the set
    return unpaired.pop()
```
